Subject: Notice of Closure, Color Country Rock, Quail 45 Quarry and Leisigange 9 Quarry, S/053/0066 and S/053/0068, Washington County, Utah

Dear Mr. Fawcett:

The two referenced Notices of Intention to Commence Small Mining Operations will now be closed and the files retired. The Quail 45 quarry was reclaimed in 2008 and the Leisigange 9 quarry was reclaimed in 2010. These sites have been inspected by both the BLM and the Division of Oil, Gas and Mining following completion of the reclamation work. The reclamation was determined to be adequate, and the BLM has notified the Division that they have closed their files for these projects.

Currently there is no reclamation surety associated with either of these projects. Since the Division is closing these files, there is no requirement to provide a reclamation surety.

You are hereby released by the Division from further reclamation responsibilities at these sites. If you wish to conduct any future mining or exploration related activity in this area, you will need to submit new notices to the Division and provide reclamation surety prior to creating any disturbance.

If you have any questions or concerns regarding this action, please contact me at (801) 538-5261 or Lynn Kunzler (801) 538-5310. Thank you for completing the reclamation at these sites.

Sincerely,

Paul B. Baker
Minerals Program Manager
